The Gettysburg Leadership Institute takes place on the battlefield of Gettysburg, Pennsylvania. Who are the major players? What were their leadership styles and how did that impact the course of events?

In this immersive experience, you'll explore historical lessons through the lens of personal leadership, organizational effectiveness, and disaster management. You'll consider your own leadership style and decide what needs to change, improve, or be added to your personal leadership toolkit.

WHO IS RIGHT FOR THE PROGRAM?

The Gettysburg Leadership Institute is for you if...

- You want to inspire and motivate your team to be more decisive, push their limits, and show confidence through your very own purpose and role.
- You plan to build trust in your team to create a strong, cohesive group.

- You already have great leadership skills but want to build on them.
- You have had to rebuild and reinvigorate your community after a crisis or want to learn the leadership skills needed to succeed in case a situation was to arise.
