

customers' facilities, the Electricity Provider may require the Customer-generator to disconnect the facility until compliance is achieved.

(3) Each Electricity Provider shall make Net Metering applications available through the Electricity Provider's website.⁶

(d) Meter aggregation

(1) For Customer-generators participating in meter aggregation, the following provisions apply:

- i. For the purpose of measuring electricity usage under these Net Metering rules, an Electricity Provider must, upon request from a Customer-generator, aggregate for billing purposes a meter to which the Net Metering facility is physically attached ("designated meter") with one or more meters ("additional meter") in the manner set out in this subsection. This rule is mandatory upon the Electricity Provider only when:
 - a. The additional meter is located on the Customer-generator's contiguous property;
 - b. The additional meter is used to measure only electricity used for the Customer-generator's requirements;
- ii. A Customer-generator must give at least 30 days notice to the Electricity Provider to request that additional meters be included in meter aggregation. The specific meters must be identified at the time of such request. In the event that more than one additional meter is identified, the Customer-generator must designate the rank order for the additional meters to which Net Metering credits are to be applied.
- iii. The Net Metering credits will apply only to charges that use kWh as the billing determinant. All other charges applicable to each meter account will be billed to the Customer-generator.
- iv. If in a monthly billing period, the Net Metering facility supplies more electricity to the Electricity Provider than the energy usage recorded by the Customer-generator's designated meter, the Electricity Provider will apply credits to additional meters in the rank order provided by the Customer-generator, and any remaining credits after doing so will be rolled over to the designated meter for use during the subsequent billing period.
- v. Customer-generators participating in meter aggregation do not have to have all meters on the same rate schedule.

⁶ In states or jurisdictions where wet signatures are not required, Electricity Providers shall accept applications online.
